

Report on “Swachhata Hi Seva 2024” – 22.09.2024 (5th Programme)

The "Swachhata Hi Seva 2024" initiative is set to enhance cleanliness and sanitation across India through a series of engaging activities, including community clean-up drives, awareness programs, and educational workshops. These efforts aim to inspire widespread public participation in fostering a cleaner environment.

At the Institute of Physics, Bhubaneswar, the "Swachhata Hi Seva" program is currently being celebrated from September 17 to October 1, 2024.

This inspiring initiative is led by Prof. Karuna Kar Nanda, the esteemed Director, with invaluable support from Lt. Col. B. Pattanaik, the Registrar and Nodal Officer, and Dr. Khirod Chandra Patra, the dedicated Coordinator, along with a team of committed IOP staff members working tirelessly to ensure the campaign's resounding success.

On September 21, approximately 25 staff members enthusiastically participated in the "Swachhata Hi Seva" campaign, held at Masjid-E-Gousia, Mancheswar, near Sainik School, Bhubaneswar, Pin-751005. Established in 1986, the mosque played a pivotal role in this initiative, with the gracious presence of President Hazi Hakim Khan and Secretary Mr. Islam Khan, who generously supported our efforts in making this campaign a resounding success.

Here is a collection of photographs showcasing the remarkable success of this program:
